

ALL-ALUMINUM RTC MODELS

RTC-89-20 EA55

THE STEP VAN LIFTGATE.

Working in close conjunction with fleet managers nationwide, the engineers at Tommy Gate have created an elite, lightweight railgate specifically designed for commercial step vans. Corrosion resistant, low maintenance, and operator safe, the RTC, All-Aluminum, Roller Railgate applies hardened-steel rollers and sealed bearings to the drive system to ensure sturdy, dependable performance through extensive cycles and in the harshest climates. With lower costs for managers and improved convenience and safety for vehicle operators, this lift is proud and eager to run against any of the competition.
